OMB No. 2050-0190 Expiration Date: 4/30/2006

## **ENROLL US!**

We Want to Be a Partner in EPA's National Partnership for Environmental Priorities

Name of Organization: Eastman Kodak Company Principal Contact: Nancy E. Laurie Authorizing Official: David M. Kiser Title: HSE WW Product Commercialization & Assessment Title: Director and Vice-President, HSE Address: 1100 Ridgeway Ave., MC 26267 Phone/Fax: (585) 588-6984 / (585) 722-4763 EPA RCRA ID Number: NYD980592497  PARTNER AGREEMENT Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.  GOAL #1. Chemical Name: Lead  CASRN: 7439-92-1  Narrative description of proposed project: Our corporate goal is to have 95% of all new equipment lead solder-free by the end of 2008. This goal will reduce 1050 pounds of lead from printed circuit boards used in Kodak equipment by the end of 2008. We plan on accomplishing this goal by (1) setting a corporate standard for lead to ensure that new equipment is lead solder-free, (2) implementing lead-free solder design requirements, and (3) pushing redesign and new technology conversion with equipment designers.
